@sarahkuhn
- @TheOtherJeff you're wearing a tie? I'm way underdressed.
- And now...we interrupt NYCC for an interlude at the Waldorf. Junkeer time! Too-rich muffins, constant "we're running 15 min late" refrain.
- @madmarvelgirl @danfaust I used to have that figure...I think I gave it away! Maybe the one at the con used to be mine.
- Nothing says "con" like "I just spilled ketchup on my pants."

redshift awesome!

- Batman: Brave and the Bold to guest-hero with Jonah Hex!
- 12", 6", and Minimate Ghostbusters! WOOO!
- Battlefield: 1943. Because we all knew future war and Vietnam were dumb choices. More WW2, only better, please.
- Aaron "Chief Tyrol" Douglas is the nicest man on Earth. FACT!
- Dark Wolverine. Think about that.

blueshift boring.

- We want to get to see how Battlestar Galactica ends as much as the next person, but does everyone on the show have to be an asshole now?
- Heroes: Fugitives needs Sentinels. Just saying.
- Mark Millar gets giant-sized end to Old Man Logan series. Because he needed more room to kill everyone in the Marvel Universe.
- Videogame companies cutting staff all over the place. Not mangers, mind you...
